Fixing the first click on CareerOS

CareerOS lets job seekers enter their details and preview an application kit before paying $1. Its pricing button skipped that first step.

THE LIVE PRICING CARD

AFTER THE CLICK

Screenshots from the public site, November 24, 2026.

What went wrong

The pricing card promised a free preview. Its “Unlock one complete kit” link went directly to checkout before the visitor could enter any details.

What changed

The card now says “Start free intake” and opens the first step of the existing form. Two automated checks cover that card’s label and destination, so a future edit that points it back to checkout can be caught before release.

How we checked it

In a fresh browser at desktop (1440 × 900) and phone (390 × 844) widths, we clicked the pricing card. Both opened “Target”, step 1 of 3, with the name field visible. The browser stayed on CareerOS and made zero checkout requests.

Try the repair

careerosnow.com/#pricing

Select “Start free intake” on the $1 card.
